August 2020

Pueblo Community Health Center (PCHC) welcomes students and parents/guardians to the 2020-2021 school year. In partnership with Pueblo City Schools, School District 70 and Health Solutions, PCHC is responsible for School-Based Wellness Centers (SBWCs) at Central High School, East High School, Pueblo County High School, Risley International Academy of Innovation, Chavez-Huerta Preparatory Academy and Centennial High School.

SBWCs delivers comprehensive primary health care/behavioral health services that are provided according to standards of care accepted by the healthcare community to assure the highest quality care. School-based wellness centers meet student needs for a full range of age-appropriate health care services including acute illnesses, such as flu, chronic conditions, including asthma and diabetes, preventative services like immunizations and physicals and behavioral health counseling.

PCHC will see any student regardless of the ability to pay. Please see the section on financial responsibility on the "Consent to Treatment and Disclosure" page. Sports physicals cost $30 due at the time of service.

Before any student can be seen we require a signed Student Consent completed by their parent/guardian. This consent will remain in force until the student leaves his/her school, or until the parent/guardian directs the SBWC to cancel it. It is the parent's/guardian's responsibility to notify the school about changes in guardianship.

Once a consent form is on file, a student is welcome to be seen at ANY SBWC site. Parents/guardians with questions about SBWC services are encouraged to contact PCHC at (719) 543-8711.

Sincerely,

Jason Pitts
Director of Clinic Operations
